

These constant speed pumps utilize Aquatec's patented multi-chamber configuration. Their applications range from delivering purified water from atmospheric storage tanks on demand to meeting the requirements of high pressure spraying and misting systems. Some typical uses include: coffee maker, refrigerator ice maker, post mix dispenser, filter systems, misting systems.

Standard Features

- Closed Impervious Diaphragm
- Integral Switch or Bypass
- Highest Structural Integrity
- Engineered Composite Plastics
- Corrosion Resistant Materials
- Standard Shutoff Switch at 60 PSI
- Power Cord
- NSF 58 Certified
- Made in the USA

How it Works

The Aquatec constant speed pumps are controlled by a built-in pressure sensing demand switch. When a faucet or valve is open down-stream of the pump, the line pressure drops and the pump automatically starts, conversely, when the valve closes, the line pressure will increase, turning the pump off automatically.

In comparison tests, Aquatec proves to be more efficient, quiet, and more reliable than competitive models. These pumps are available in flows from 0.7 GPM to 6 GPM. They are designed for intermittent use, though most models can run continuously for hours at a time.

POPULAR

ITEM NUMBER	DESCRIPTION	SHUTOFF PRESSURE	IN/OUT	VOLTAGE
30558004	5800 Series Pump, 0.7 GPM @ 60 PSI, 1.1 GPM Open Flow	60 PSI	3/8" JG	120 VAC, w/ Cord
30558001	5800 Series Pump, 0.9 GPM @ 60 PSI, 1.2 GPM Open Flow	60 PSI	3/8" JG	120 VAC, w/ Cord
30558002	5800 Series Pump, 1.3 GPM @ 60 PSI, 1.7 GPM Open Flow	60 PSI	3/8" JG	120 VAC, w/ Cord
30555002	550 Series Pump, 3.5 GPM @ 60 PSI, 6 GPM Open Flow	60 PSI	1/2" FNPT	115 VAC, w/ Cord

AQUATEC ACCUMULATOR TANK, FOR PULSATION DAMPENING

Standard Features

- Adaptable NPT Connection
- Compact Design fits in small spaces
- Dampens pump switch cycling/pulsations
- Provides consistent water pressure
- Limits harmful spikes/water hammer
- Minimizes hydraulic noise
- NSF food grade materials
- Easy to install and maintain
- Mounts in any position with included bracket
- Made in the USA
