

A complete boosting system for consistent water pressure. The integrated accumulator tank is specifically designed to limit harmful pressure spikes, dampen pump switch cycling, and minimize hydraulic noise.

Ideal for one or many points of use where low pressure or flow is a problem. Some common applications include: RO water storage, coffee maker, refrigerator ice maker, post mix dispenser, filter systems, misting systems.

Standard Features

- Aquatec® 5800 Series Demand Pump
- Aquatec® Accumulator Tank
- All-in-One, Compact System
- Automatic Shutoff Switch at 60PSI
- Easy Install Bracket, Floor/Wall Mountable
- Noise Dampening Rubber Feet
- Optional Pressure Gauge
- 120 VAC with Cord
- NSF Food Grade Materials
- Made in the U.S.A.

ITEM NUMBER	DESCRIPTION	SHUTOFF PRESSURE	IN/OUT	VOLTAGE
30558904	Aquatec 5800 Pump, 1.1 GPM @ Open Flow, 0.7 GPM @ 60 PSI	60 PSI	3/8" JG	120 VAC, w/ Cord
30558902	Aquatec 5800 Pump, 1.2 GPM @ Open Flow, 0.9 GPM @ 60 PSI	60 PSI	3/8" JG	120 VAC, w/ Cord
30558900	Aquatec 5800 Pump, 1.3 GPM @ Open Flow, 1.7 GPM @ 60 PSI	60 PSI	3/8" JG	120 VAC, w/ Cord
OPTIONAL FOR ALL MODELS				
008265	Gauge Kit, 3/8" NPT, 0-100 PSI, Option with Aquatec Pump System
